

Gavotte

Johann Sebastian Bach

This gavotte is the third piece of Partita for solo violin No.3 by J.S.Bach. The difficulties of playing this piece are to play right on pitch and to make beautiful harmony by two violins. If you play in pure temperament instead of equal temperament, you can create pleasant harmony.

From the eighth bar of section D, the melody changes in every two bars. Try not to delay and let your body feel the melody of the opposite part as if you play all parts by yourself, and you and the opposite player can be one.
